

WORK NOTIFICATION
Bay Area Drum Site
San Francisco
JUNE 2001

The California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) is distributing this work notification to advise people living adjacent to the Bay Area Drum Site of the upcoming building demolition activities which will be taking place at the Bay Area Drum site located at 1212 Thomas Avenue.

WORK SCOPE

Demolition activities consist of the following:

1. **Asbestos Abatement:** The siding, which is attached to the building, is covered with asbestos-containing paint. A licensed asbestos contractor will remove the siding by hand. The asbestos in the boiler shed will also be removed. Workers will wear personal air monitors and protective clothing and DTSC will periodically conduct dust monitoring during these activities.
2. **Building Demolition:** After the siding has been removed, a large excavator with a shear attachment will be used to cut the remaining structure into smaller pieces and remove them for metal recycling.
3. **Site Preparation:** During this time, the contractor for the soil and groundwater cleanup will also begin to prepare the site. Site preparation activities may include the installation of fencing and removal of materials from the backyards and the vacant lot in preparation for the cleanup activities later this summer. Additional work notices will be distributed once the schedule for these activities is finalized.

SCHEDULE

Work is expected to begin on Tuesday, June 12, 2001. Work is expected to take four to six weeks. Working hours will be 8 AM to 5 PM Monday through Friday. No work will occur on weekends. In addition, no work will occur on Wednesday, July 4th.

COMMUNITY INFORMATION AND CONTACTS

If you have any concerns or questions regarding these activities, please contact either Bill Brown, Project Manager at (510) 540-3841, or Rachelle Maricq, DTSC Public Participation Specialist at (510) 540-3910. For media inquiries, contact Lisa Kunz at (916) 327-6104.
